Rich, that sounds fine..... I'm not trying to interfere just trying to manage expectations from other Divisions who want to help..... and Cindy C was not on the RICT call so there may be some communications gaps in Ft Meade. Thanks, den.

I did send the list of proposed analytes to Karen Johnson and Cindy Caporale on the 18th. Karen reviewed it and offered some comment. Cindy provided a list of suggested analytical methods which was the basis for the draft SAP. Further, Cindy has been in continual contact both with me and our contractor to coordinate who will be doing the analysis etc.

Right now we still have only a draft plan and will, based on input from Ludwig, be paring back considerably on what we intend to sample for. I anticipate a final draft to be complete tomorrow.

My plan was to send it to it out for comment at this point. Is this acceptable?

thanks
Rich

Rich, thanks for the follow-up with ORD. If you haven't done so yet, remember we need to also coordinate the sampling plan with WPD and Ft Meade. Ft Meade in particular is asking to see it so they can be prepared to manage getting the analytical done. Cindy Metzger mentioned that on the RICT meeting/call last Thursday and Fred Foreman was on the call..... so I presume he's your point of contact there. They understand the priority. Karen Johnson would be the POC in WPD. Call if we need to discuss. Thanks, den.

Just wanted all to know that my conversation with Ralph went very well yesterday. We spoke for about an hour and he had some helpful observations. He will be providing written comments soon...
